Then you have referred to the night soil depôt at Pujappurai. We steps to shut up that depôt and I trust that we shall soon be in a position to stop carting night soil there.

Member.—Sir, have you seen it ?

Dewan.—I have seen it twice. I will see that night soil is disposed of in less objectionable sites.

You have next referred to Police jurisdiction. Your proposal is to transfer some *pakuthies* from the Kazhakkuttam Station to the Cantonment Station.

Member.—Shifting of the taluk station.

Dewan.—What you want is the shifting of the Kazhakkuttam Station to Siyaram.

Member.—Yes.

Dewan.—I will consult the Police Commissioner.

Member.—Or we want the conversion of the Vattiyurkavu Station into a charging Station.

Dewan.—We cannot be adding to the existing number of charging stations. Only recently we reduced the number of charging stations; and it will not be possible to add to the charging stations so soon. An addition to the number of charging stations means addition to the number of Inspectors, etc.

128. Public Institutions in Nedumangad.

Mr. P. Kesava Pillai (Member, Nedumangad Taluk) in urging the establishment of a Munsiff's court at Nedumangad, said that, although that subject had been brought forward at many previous sessions by the Assembly, no good had come out

The Member concluded by thanking the Government for their decision that English need not be taught as a compulsory subject in vernacular schools with three miles of which there were English schools, either departmental or aided. been

Dewan's reply.—In regard to a Munsiff's court at Nedumangad th at the Court have again observed that the contribution of suits from Nedum be spent very small and that there is no justification to open a Munsiff's court the Member red not been write to the High Court again and ask them whether the present statistic justify the transfer of a Munsiff's court to Nedumangad.

There is already Form I in the local English school. Form ry office at e necessary higher Forms will come by and by. I think the present strength in Form sult of the good. In regard to the school building, in 1095 the people of Nedum sessions of promised land measuring 2½ acres, next to the Town Hall. This was pla ive walls disposal, but they have not built the school on it as promised by them. The peopl mber of Nedumangad must come to the help of Government and contribute towards the cost of the building. The school is now held in a *satrom* and it cannot accom-modate all the pupils. But if the people would come to an agreement with Govern-ment, the Government would contribute a portion of the cost of the building.

The Assembly adjourned at 5-45 P. M.
